About The PeterSan Group

In 1994, Sandra Friedman, Peter Goldfeder and Peter Gosule founded The PeterSan Group, one of the nation's premier legal search and consulting firms. We are a full service search firm, placing attorneys in all facets of the legal market. Our team of experienced legal search consultants services all our clients' hiring needs in a professional and timely manner.

Searches are conducted on a retainer or contingency fee basis. Our clients include leading law firms worldwide as well as financial institutions, investment banks, consumer product, aerospace, chemical, healthcare, pharmaceutical, entertainment, new media, and other Fortune 500 companies.

For Clients

The PeterSan Group has built its reputation by giving our law firm and in-house clients exactly what they're looking for. Our clients appreciate our disciplined screening of candidates, based on decades of practical and professional experience, resulting in a few choice resumes with the perfect experience and credentials. The PeterSan Group's decades of experience - and the experience of many of our recruiters as attorneys at premier law firms and at top law departments as in-house attorneys - means that we can use our experience and extensive networks to find top-quality candidates who are not actively looking for a new role.

In-House Placement

The PeterSan Group's unique depth of expertise with in-house recruiting assures that we understand the qualities that make for a successful in-house attorney. The candidates we introduce to our in-house clients are selected with this in mind.

Partner Placement

We recruit and place partners, doing everything we can to utilize everyone's time efficiently and to add real value along the way. In partner placement, there is no substitute for investing time and energy up front to understand all of the relevant factors and issues or for diligently following a transaction through to completion. For partners looking for a new home, this helps us develop a short list of the best firms to approach and then guide the partner through the process of understanding what makes the most sense for his or her practice. For firms, it means we bring only candidates whose practices and personalities will fit into the firm's culture.

Associate Placement

The PeterSan Group has a proven track record of advising associates every step of the way in selecting their next law firm opportunity. Our decades of experience, working with attorneys at each stage of their careers, assures that they make the right lateral moves.
